#2 Teachers, Village st. Brgy Kapitan Pepe, Nueva Ecija, 3100

SUMMARY

As an aspiring IT professional, my goal is to expand my knowledge and gain experience in software development, php, github, and team collaboration. With hands-on experience during university studies and passion for technology and software development. I am a highly motivated, reliable, and adaptable individual, I am eager to contribute to projects and learn from industry professionals and grow as a future software developer.

EXPERIENCE

- Developed and optimized SQL queries to retrieve, analyze, and manage data efficiently, ensuring data integrity and performance.
- Utilized GitHub for version control, collaborating with peers on coding projects and maintaining organized repositories.
- Assisted in the installation and configuration of CCTV systems, ensuring proper setup and functionality for security purposes.
- Conducted in-depth research and analysis to design a comprehensive network infrastructure tailored to the needs of Saint Louis School of Pacdal Inc.

SKILLS

- HTML
- CSS
- Java
- Web Design
- SQL
- Network security fundamental
- Python
